

Choosing your Homesite and selecting your Builder at Renwick.

WiningerStolberg offers you an exciting, flexible way to build the home of your dreams in our newest community—Renwick.

Here are the steps to building your new home in one of the distinctive neighborhoods at Renwick.

1 Select Your Homesite

Learn more about the different sizes and types of homesites when you talk with a Renwick representative. They will assist you in selecting the perfect homesite in one of the wonderful neighborhoods of Renwick.

2 Homesite Reservation / Financing

Select your Renwick homesite and WiningerStolberg will hold this homesite for you with payment of a refundable deposit. Work with the lender of your choice to secure

a mortgage approval for your homesite and new home. Financing can occur anytime prior to homesite purchase.

3 Homesite Purchase

A Purchase Agreement will be written, and a final deposit will be held in escrow along with the initial homesite reservation deposit.

4 Select Your Builder

Choose your builder and share the vision for your perfect home. We'll help by reviewing the specifications and architectural requirements of Renwick with you and your builder—then we create “sketch plans” to show how your new home will be situated perfectly on your homesite.

5 Architectural Review

Once your home plans satisfy the specifications and architectural requirements of the neighborhoods at Renwick, you are now ready to build your new home.

6 Construction

Congratulations! That wonderful smell of fresh-cut lumber awaits you.

The Charter Builders of Renwick.

■ These specially prequalified Charter Builders are ready to plan and construct your new home in one of the neighborhoods of the community of Renwick.
